Empathy Map

Create an empathy map to understand your customer/user from four perspectives - what they Say, Think, Do, and Feel - in relation to the problem your project addresses. This helps the team build a customer-centric solution.

SAYS	THINKS
• I need farming advices in my local language • I need accurate weather and soil information. • I want to increase my crop yield and profit.	• How can I reduce farming costs? • Can I trust the recommendations? • What if the weather changes suddenly?
PERSON NAME :Farmer	

DOES

- Buys seeds and fertilizers based on recommendations.
- Tests soil or asks experts for advice.
- Uses mobile apps or government schemes for information.

FEELS

- Happy when getting good harvest and profit.
- Stressed due to uncertain weather
- Hopeful about using technology for better farming
